

QHAMANI TWAKU

Academic CV | Application for UCT–Cortex Hub Fintech Lab | Programme and M&E Administration Intern

East London, South Africa | twakuhlumelo6@gmail.com | 078 844 7837

PROFILE

Final-year BCom Information Systems student at the University of Fort Hare with experience in academic support, student coordination, systems thinking, and digital problem-solving. Skilled in communication, organization, teamwork, and supporting students through tutoring and peer engagement initiatives.

Passionate about technology, fintech, digital inclusion, and using practical systems to improve operations and user experiences within community and educational environments. Eager to gain hands-on experience in programme administration, coordination, monitoring and evaluation, and startup ecosystem support through the UCT–Cortex Hub Fintech Lab.

Interest And professional Development

- Fintech and digital financial inclusion
- Startup and innovation ecosystems
- Programme coordination and student development
- Digital systems and process improvement
- Technology for community impact
- Monitoring, reporting, and organizational support

EDUCATION

Bachelor of Commerce (BCom) - Information Systems | University of Fort Hare 2023 - Present

- Final-year student with academic focus in Information Systems, Business Analysis, Databases, Systems Analysis and Design, Operations Management, Project Management, and business technology modules.
- Academic record and certificate of conduct available for application submission.

National Senior Certificate (Matric) | Ekuphumleni High School

Academic Support & Student Engagement Experience

Database Tutor – Second-Year Information Systems Students | University of Fort Hare | 2026 - Present

- Support second-year Information Systems students through tutorial sessions, academic guidance, and one-on-one assistance.
- Coordinate tutorial communication, student engagement, scheduling, and online group support.
- Assist students in understanding database concepts, SQL, relational databases, and practical coursework requirements.
- Work collaboratively with lecturers, tutors, and class representatives to organise tutorials and academic support activities.
- Strengthen communication, facilitation, leadership, and problem-solving skills through peer academic support.

RELEVANT ACADEMIC AND TECHNICAL SKILLS

Systems and business analysis: requirements gathering, workflow thinking, business process analysis, systems analysis and design.

Database and data skills: SQL, database querying and management, data organisation, Microsoft Excel.

Programming and web development: HTML, CSS, JavaScript, C#, ASP.NET Web Forms, React, TypeScript, Next.js (foundational).

Academic communication: research reading, academic writing, report structuring, presentations, peer explanation.

Productivity tools: Microsoft Word, PowerPoint, Excel, documentation and project planning tools (ProjectLibre).

ACADEMIC PROJECTS AND PRACTICAL EXPOSURE

Systems Development Project Experience | Academic / Group Project Work - 2026

- Worked on database-backed web application concepts using ASP.NET Web Forms and SQL Server, with focus on catalogue, basket/checkout, order tracking, and structured data storage workflows.
- Applied systems development thinking to convert user needs into pages, data tables, workflows, and implementation steps.

Business and Systems Analysis Coursework | University of Fort Hare

2023 - Present

- Analysed business problems, requirements, processes, and system design decisions across Information Systems and business modules.
- Built confidence in explaining technical and business concepts clearly to peers and group members.

Independent Web Development and Digital Projects | Self-directed / Mini-agency learning

Ongoing

- Developing practical front-end and full-stack skills through website building, user-facing copy, responsive design, and client-focused digital solutions.
- Interested in using web systems to solve real business problems rather than only creating static pages.

LEADERSHIP, INVOLVEMENT AND PROFESSIONAL DEVELOPMENT

Residence Committee: Maintenance Officer | Student Leadership - 2026

- Developing responsibility in communication, problem identification, follow-up, and representing student needs in a structured residence environment.

Debate, Rowing and Student Club Involvement | University of Fort Hare - Ongoing

- Active in campus life, building communication, discipline, teamwork, leadership, and analytical argumentation skills.

Innovation and Technology-for-Impact Exposure | Hackathon / proposal / application preparation - Ongoing

- Explored ideas around digital financial inclusion, fintech, blockchain, AI, campus systems, and community-focused technology solutions.

RELATED COMPETENCIES

- Strong analytical thinking and willingness to learn independently.
- Ability to explain complex concepts in a simplified and patient manner.
- Reliable, organised, and comfortable working in teams and group projects.
- Clear written and verbal communication skills.
- Interest in practical problem-solving, and technology that serves people.
- Administrative and organisational skills
- Event and student coordination
- Microsoft Word, Excel, PowerPoint
- Record-keeping and documentation
- Academic support and facilitation
